HIGHLIGHTED PROJECTS

- **NeuroMed Predict**

  Developed a cloud-based AI system using neural networks to assess the risk of diabetes and cardiovascular diseases, integrating a medical chatbot for user support.

- **Currencier**

  Developed an iOS app that enables users to monitor real-time Forex data, including exchange rates and candlestick charts, featuring a currency converter and customizable settings.

- **FEM Optima**

  A program designed to analyze transient heat flow using the Finite Element Method, with a focus on simulating heat transfer through a building wall.

EXPERIENCE

Nokia solutions and networks sp. z o.o
Software Developer
Kraków, Poland
07/2024 - Present

- Developing a framework for automating telecommunications tests in Python
- Creating an environment for tests visualization using React and FastAPI
- Implementing CI/CD pipelines and deploying with Jenkins and Docker containerization
- https://www.nokia.com/

EDUCATION

AGH University of Science and Technology
Computer Science in Engineering
Kraków, Poland
10/2021 - 02/2025
GPA **4.94** / 5.0

Kazimierz Brodziński 1st High School
Advanced Math & Physics Program
Tarnów, Poland
09/2018 - 05/2021

TRAINING / COURSES

Introduction to Deep Learning and Artificial Neural Networks for Engineers with PyTorch

ACERT certificate in English at level B2

MAIN TECHNOLOGIES

Python | TypeScript | JavaScript | HTML | CSS | C | C++ | SQL | Swift | Bash

React | FastAPI | Docker | Jenkins | Azure | Terraform | Cypress | SwiftUI | PyTorch

INTERESTS

- **Arts & Literature**
- **Sports**

DATA CONSENT

I hereby consent to the processing of my personal data for necessary purposes related to recruitment, in accordance with Regulation EU 2016/679 on the protection of natural persons regarding the processing of personal data and the free movement of such data, and repealing Directive 95/46/EC GDPR .
